Customer Profile & Segmentation

Objective 5.1 | Who are our customers and how do the segments differ?

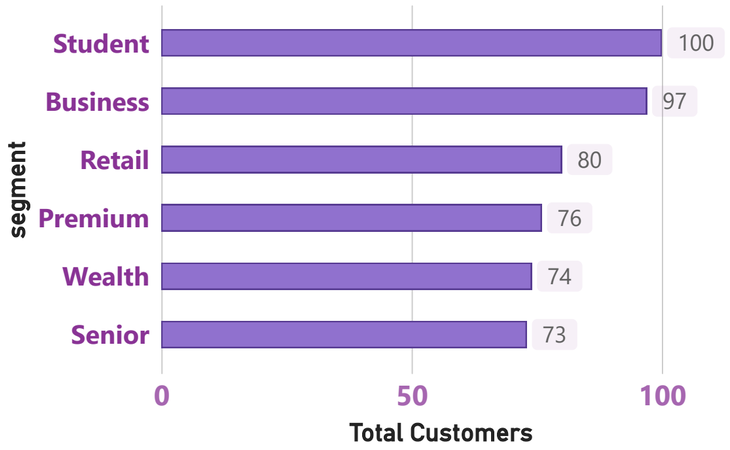

Total Customers
500

Active Customer Rate
75.0%

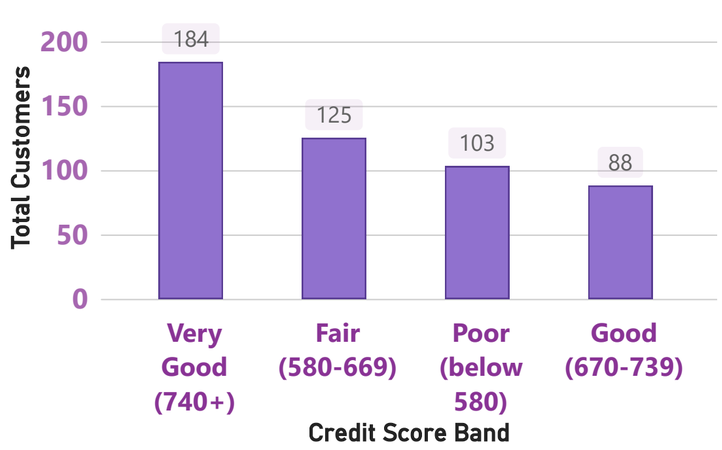

Avg Annual Income
152K

Avg Credit Score
683

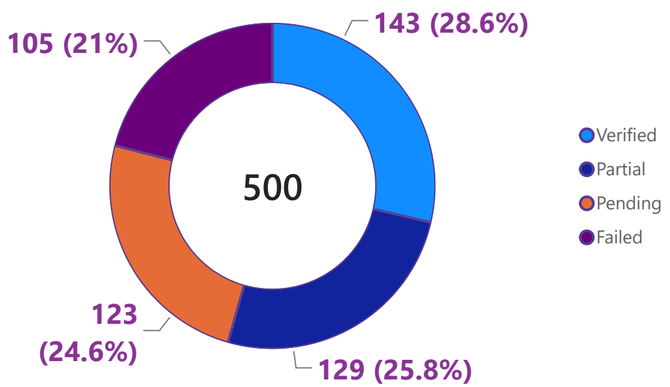

Total Customers by segment

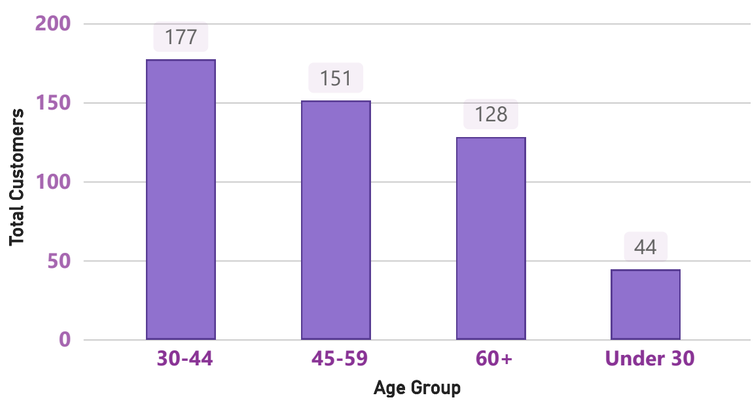

Total Customers by Credit Score Band

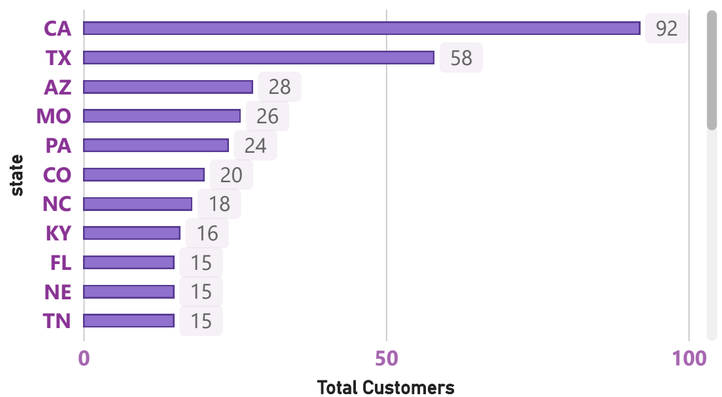

Total Customers by kyc_status

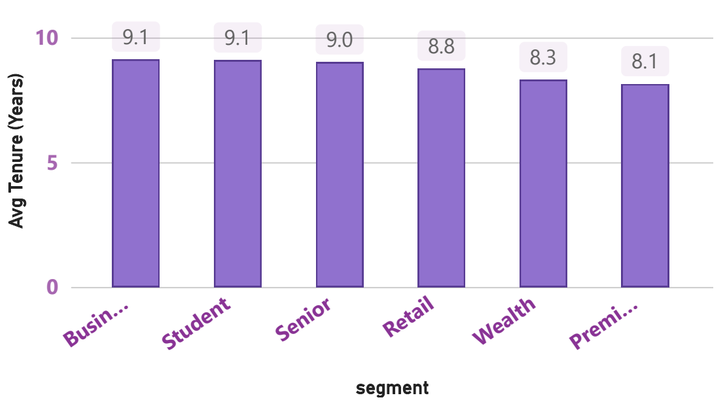

Total Customers by Age Group

Total Customers by state

Avg Tenure (Years) by segment

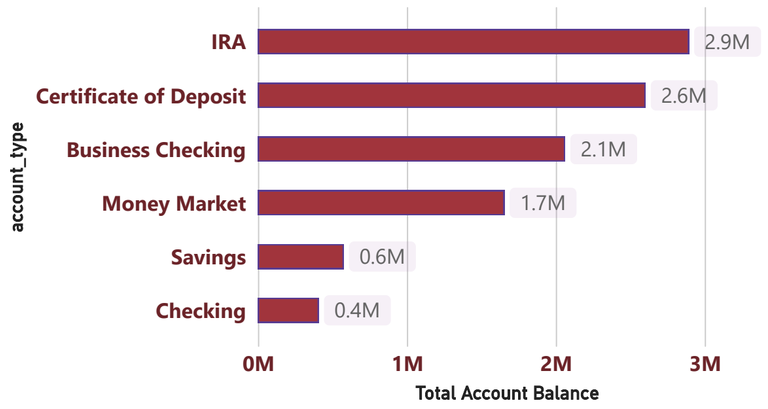

Account Usage & Branch Activity

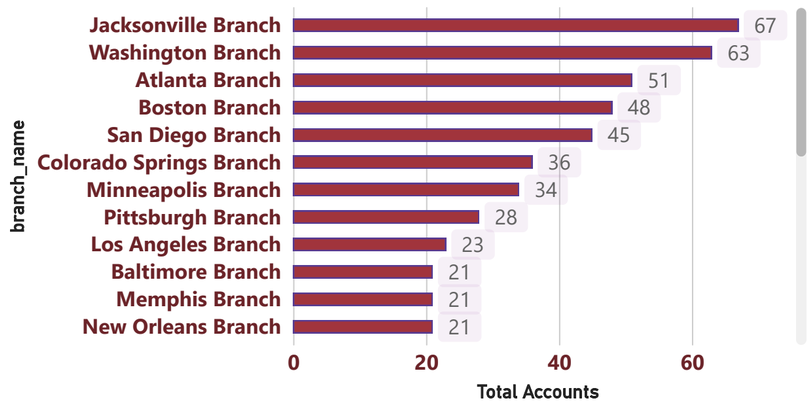

Objective 5.2 | How are accounts used and how do branches compare?

Total Account Balance	Active Account Rate	Total Accounts	Avg Interest Rate
10M	71.0%	700	2.58

Total Account Balance by account_type

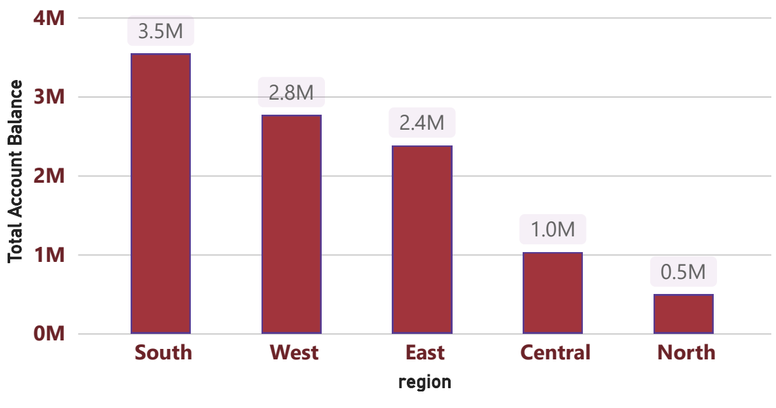

Total Accounts by branch_name

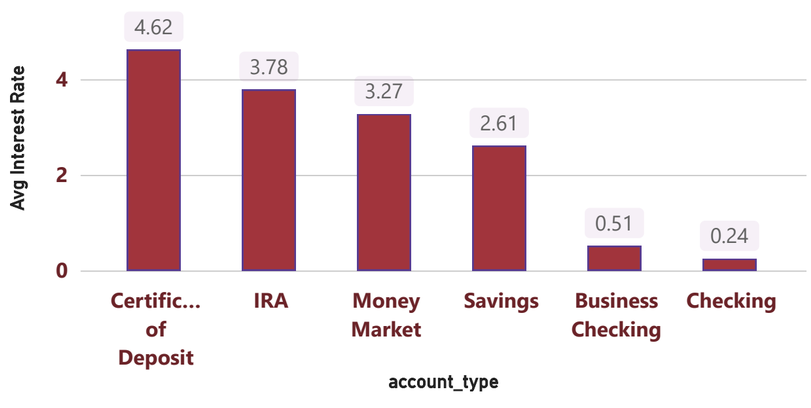

Account type and Region

- Business Checking
- Certificate of Deposit
- Checking
- IRA
- Money Market
- Savings

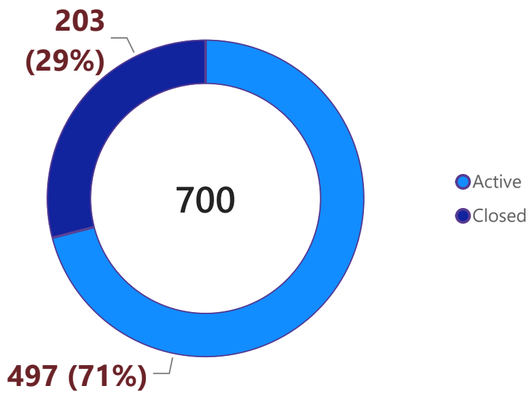

Total Account Balance by region

Avg Interest Rate by account_type

Total Accounts by status

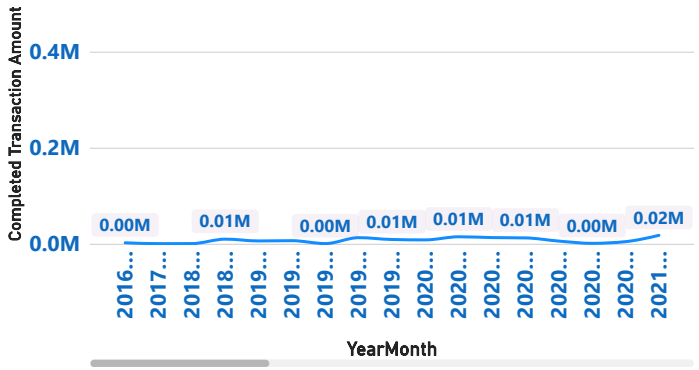

Transaction Patterns

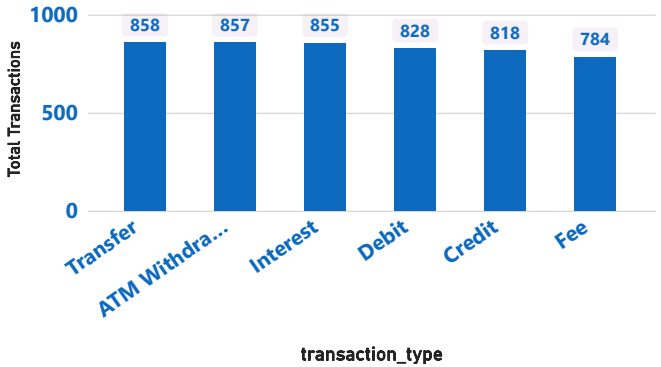

Objective 5.3 | How does money move through the bank?

Total Transactions	Net Flow	Transaction Success Rate	Completed Transaction Amount
5K	-2M	33.8%	11M

Completed Transaction Amount by YearMonth

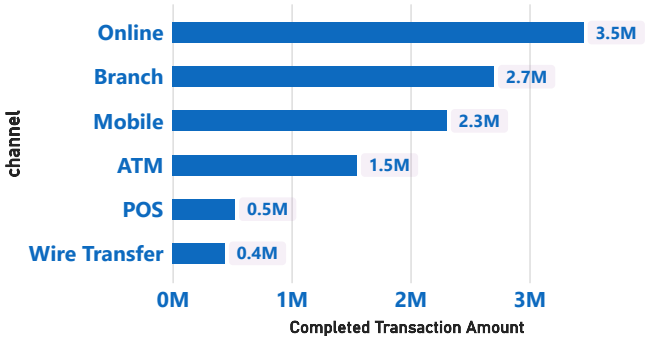

Total Transactions by transaction_type

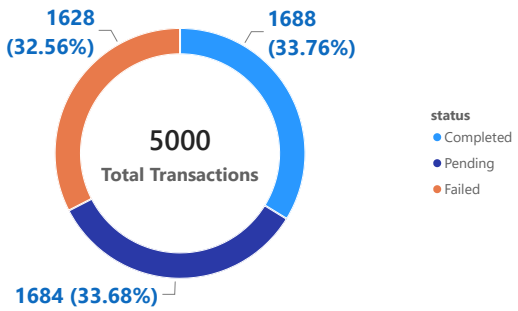

Channel

- [ ] ATM
- [ ] Branch
- [ ] Mobile
- [ ] Online
- [ ] POS
- [ ] Wire Transfer

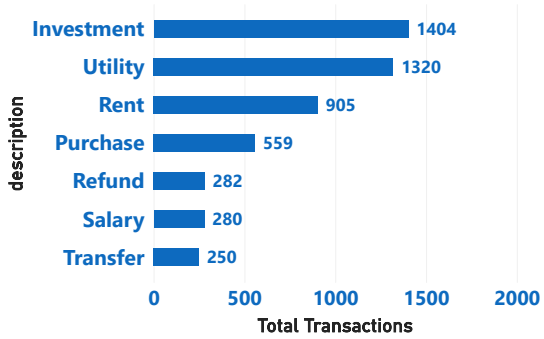

Completed Transaction Amount by channel

Total Transactions by status

Total Transactions by description

Loan Performance & Repayment Behaviour

Objective 5.4 | Are loans being repaid as expected?

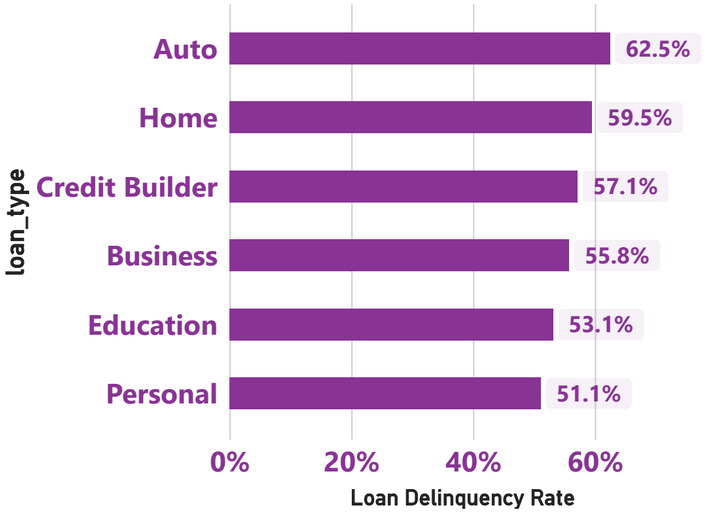

Loan Delinquency Rate
56.3%

Total Outstanding Balance
53M

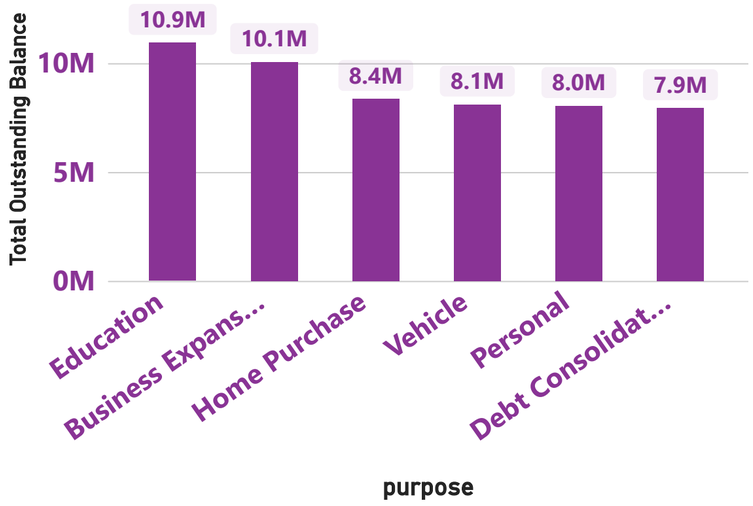

Total Loans
300

Late Payment Rate
25.0%

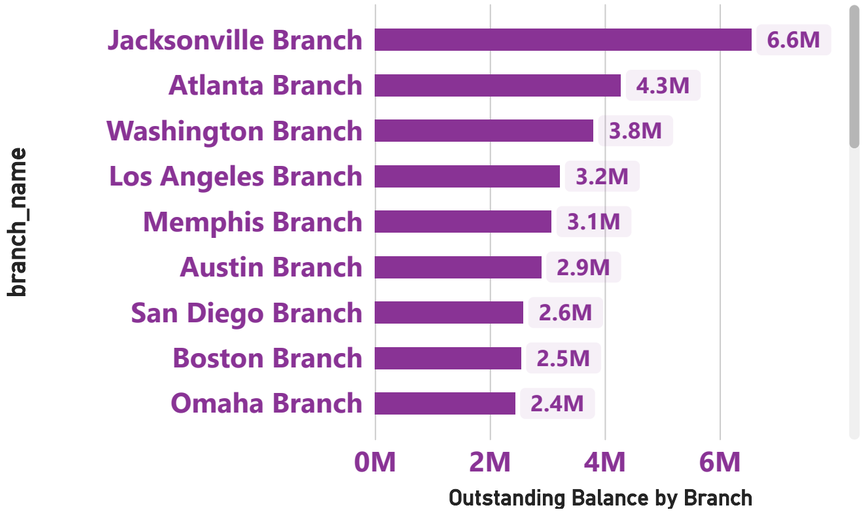

Loan Delinquency Rate by loan_type

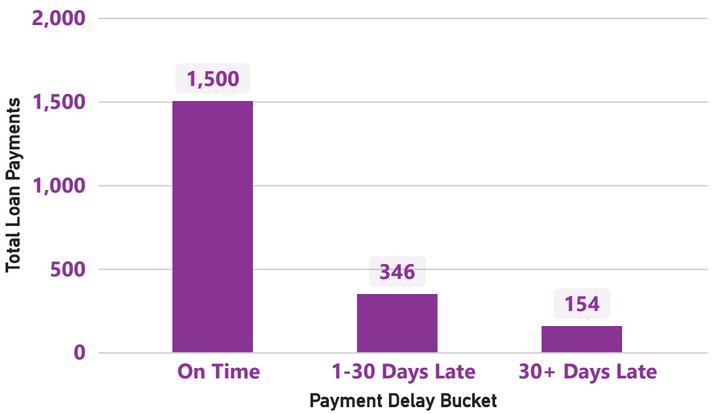

Total Outstanding Balance by purpose

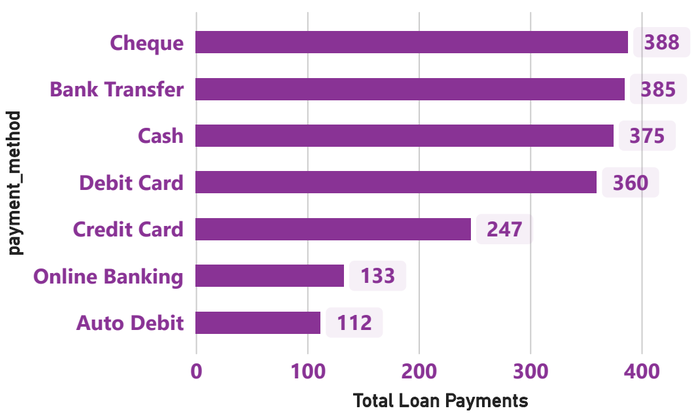

Outstanding Balance by Branch by branch_name

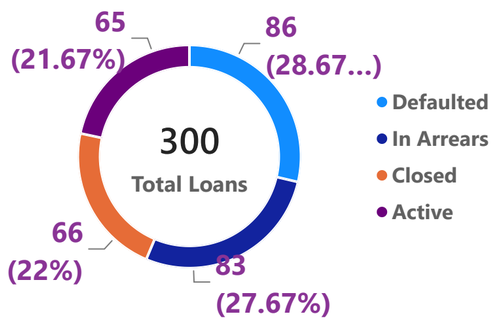

Total Loan Payments by Payment Dela...

Total Loan Payments by payment_met...

Total Loans by loan_status

loan_type, loan_status

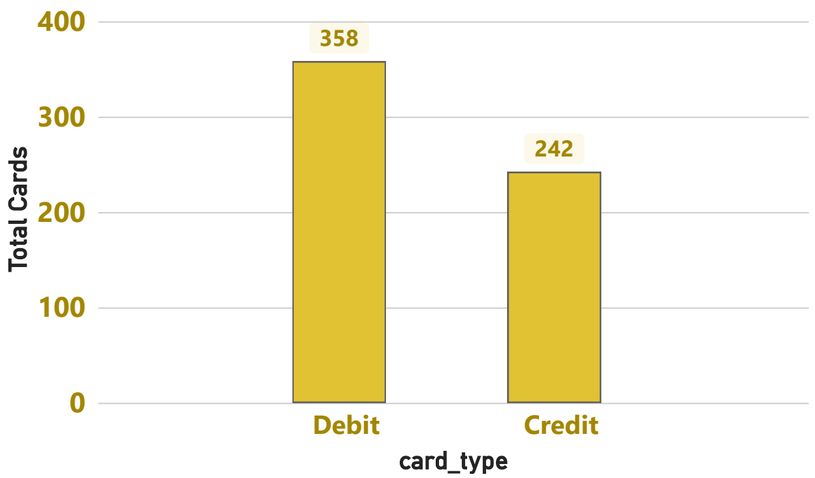

- Auto
- Business
- Credit Builder
- Education
- Home
- Personal

Card Usage & Product Engagement

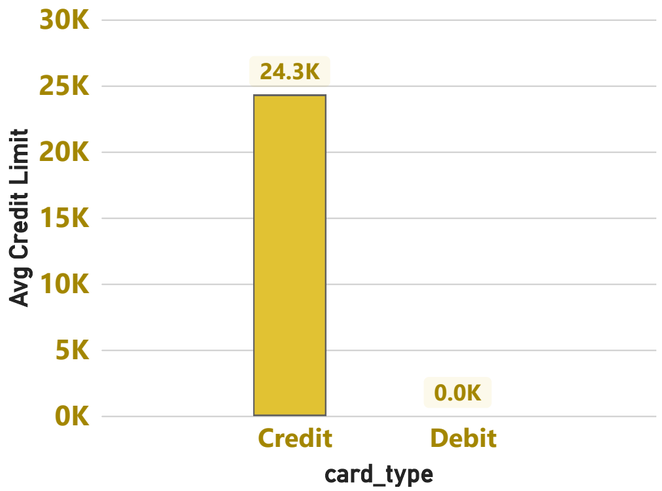

Objective 5.5 | How deeply do customers use our products?

Total Cards	Active Card Rate	Card Utilization %	Multi-Product Customer Rate
600	6.2%	41.8%	63.2%

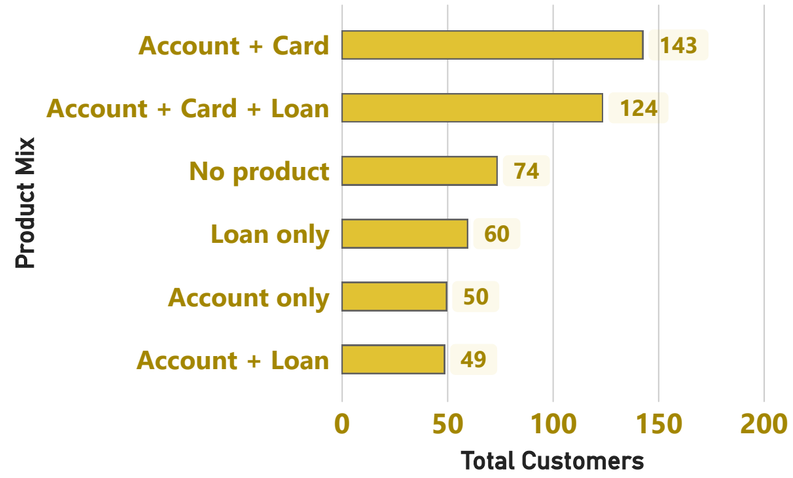

Total Cards by card_type

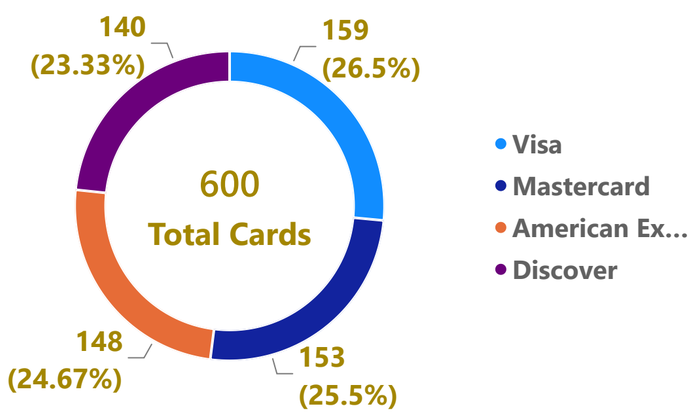

Avg Credit Limit by card_type

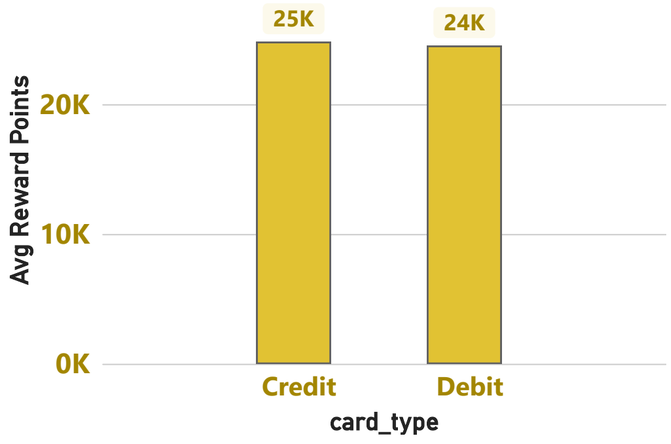

Total Customers by Product Mix

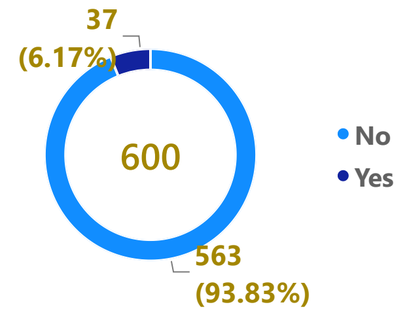

Total Cards by network

Avg Reward Points by card_type

Total Cards by is_active

card_type, network

- [ ] Credit
  - [ ] American Express
  - [ ] Discover
  - [ ] Mastercard
  - [ ] Visa
- [ ] Debit
  - [ ] American Express
  - [ ] Discover
  - [ ] Mastercard

Executive Summary

Objective 5.6 | Headline KPIs and key findings for management

Total Customers	Transaction Success Rate	Loan Delinquency Rate	Total Account Balance
500	33.8%	56.3%	10M

Total Outstanding Balance	Active Customer Rate	Multi-Product Customer Rate	Late Payment Rate
53M	75.0%	63.2%	25.0%

Key findings:

1. **Loans are the biggest risk.** 56% of loans are In Arrears or Defaulted, and 25% of payments are late. About 74% of the amount lent is still unpaid.
2. **Transactions fail too often.** Only 34% of transactions complete, and the problem is the same across every transaction type, which points to a system-wide issue.
3. **Customer activity is below target.** 75% of customers and 71% of accounts are active. Premium (70%) and Senior (66%) segments are the least active.
4. **Certificate of Deposit accounts hold the most value** (highest balance and interest rate), while Checking accounts hold the least.
5. **Recommendation:** Prioritise loan recovery, fix the transaction processing failures, and run re-engagement campaigns for Premium and Senior customers.
